Dear supporter and well-wisher

This was a year with many ups and downs. We came across many opportunities that helped us keep our noble work on throughout the year. The special project of this academic year was 'VIDYANKUR PROJECT'! The project started with the collaboration of Zilla Parishad school to increase the numeracy literacy of students who are lagging behind in their academic studies.

We did a pilot partially with ZP schools in the early year, but this year, it emerged as a full fledged project. We received co-operation, love and appreciation from all 6 schools from the block. Total 98 students benefited from the project.

Same schools were part of the 'LITTLE KALAM SCIENCE PROJECT (LKSP)' where students from class 6 and 7 learnt the concepts of science through an innovative 'Learning by doing Method. The result of this project was clearly seen when the students from the same project did participate in various block and district level competitions and won prizes. Shiradwad village ZP school was a star performer amongst them.

We (Vidyoday team) started working in depth on our outcome oriented 'SHIKSHA SAMVAD PROJECT (SSP) this year and we found our champions also! Last year's initiative, which works on the teaching method of teachers to make students understand the concept by heart and involve them in learning by doing method, is remarkably successful this time. Two teachers (Patil Mam, Kanya Vidya Mandir, Abdullat and Kagawade Mam, Kumar Vidya Mandir, Shiradwad)) from the cohort adopted the technique and blended it in their daily teaching technique. It was a truly satisfying moment for us. The real systemic change, hence begins here!

Varsha Patil , one of the team members from the Team Vidyoday, led the example by attending an important Trainer workshop organized by Khelghar institute and tried to replicate the same in the field teachers this time. We are proud to see the leading quality of Mrs. Varsha Patil encouraged her to contribute in the same manner with much more passion in coming years.

Mr. Rajendra Chougule took the charge to lead the Little Kalam Science project with much dedication this year. We are very lucky to have such a wonderful team with us that brings systemic change in the society and their personalities as well.

We are blessed with our donors who supported our great cause, not only with monetary, but with regular meets and guidance and caring support this year. Local and regional newspapers, media also covered many of our initiatives and events that helped us spread the word of Vidyoday.

The year was of learning and celebration of small success stories and paved the way to achieve the outcome that we determined to bring about 8 years ago.

Thank you for your blessings and support,

Vinayak Mali,
CEO and Co-Founder, VMPF

HONOUR THAT INCREASED OUR RESPONSIBILITY

"Ashwini Sanjeevani Award" has been given on behalf of Savangadi Senior Citizen Sangh (Pune) under Ashwini Japtivale Smriti Pratishthan, to those who have done remarkable work in the social field for the last 12 years. This year's Ashwini Sanjeevani Award, 2022 was given to the Vidyoday Muktangan Team by veteran writer, social activist Vinaya Tai Desai. A donation of amount INR 10,000 to the organization, a letter of appreciation and a memento were included in this award. We thank you all from the bottom of our hearts and may your love, help and blessings always be with us.

AWARDS AND RECOGNITIONS

SAVITRI SANMAN NEWS

Vidyoday team is working for upliftment of society for last 8 years. The noble work for children impacts most on their mothers. The organisation is aware about the same and organize, support the events that unlock the potential of women. Focusing on this efforts, Rotary Club of Ichalkaranji offered us 'Savitri Sanman' this January, 2023.

Honors by Rotary Club of Ichalkaranj

Rotary Club of Ichalkaranji, Probus Club honours young people who have done great work in the field of social and sports. This year's award was given as an acknowledgement of the work of Vidyoday Mukhtangan Parivar foundation . Ro. Venkatesh Deshpande* Amrut was done by ... On behalf of all of us, it is evident that the sense of responsibility is increasing while accepting that honor. May all your love and blessings always be with you...

WE FOUND OUR LITTLE KALAM - STORY OF ISHAAN

Our Vigyan Fellow met Ishaan, when started the project this year. The team found Ishaan a bit secluded by nature. He was very much unwilling to participate in any activity in the class. He used to sit quietly in the class and teachers had very low attention towards his progress due to his unusual behavior. Also, the impression about him was not good in class, he was called a slow learner and dumb by many. Even he had an inferiority complex for himself too.

When Vigyan fellows from the team entered into the class and started learning by doing activity, they could see that Ishaan is slowly getting pulled into the activities. He gradually started asking questions, giving new inputs, sharing his experiences among peers and in the class too. Fellows encouraged him to be the part of the project which was part of the Vidyanotsav on Science day. He participated and his model 'Flood indicator' got selected at the block level.

This was a truly surprising and evident success story that truly showed the impact of the project. We could see him transforming from a silent introvert to a young scientist with a vision for society.

ISHAN PRESENTING FLOOD INDICATOR IN SCIENCE EXHIBITION .

SELLING DIYA, GAINING LIFE SKILLS

During this Diwali season little Kalam science students were ready to groom their marketing skills. During this Diwali, each center created beautiful 3000+ diyas and sold them by setting up stalls outside their homes. The business was so profitable that they could buy new clothes for Diwali using their margins. This event filled a new confidence in them and helped them to understand the practicality of the business, the math and the creative skills that they can polish on.

THE "SWEET VISIT" OF NURSERY

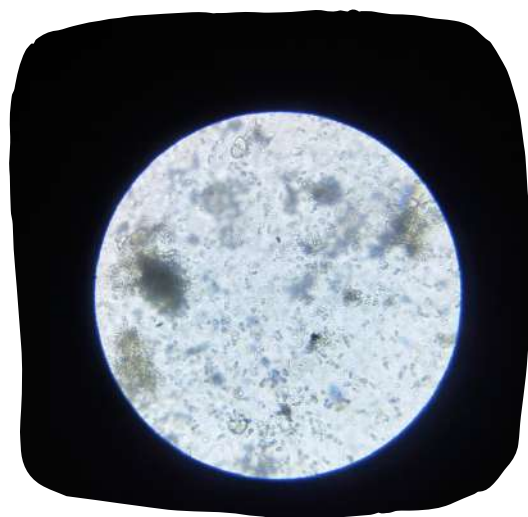

In the month of September, our 'Little Kalams' met Mrs. Aarge from Birnale Sugarcane nursery. For some time, the children volunteered to help the aunty to plant saplings. Students understood their economics and the business strategies that were applied for the nursery.

Aunty answered many questions raised by the curious minds regarding the sugarcane nursery. Aarge aunty gave sweet sugar on each little palm as a gesture of goodbye and wished them good luck for their future journey.

AMOEBA, PARAMECIUM FROM THE BOOK MET CHILDREN!

As a part of the biology section of science, students from LKSP always used to study Amoeba, Paramecium in books, and see pictures; But when the children saw these microorganisms in real life, their joy had no beyond! We prepared slides of these microorganisms in a few days and showed them to the children through a microscope. The children's jaws had a big 'Aww' while looking at these tiny creatures. They started showing them to each other. Surely, we can call this 'learning by experience'.

SEVANKUR PROJECT

READING LINES BETWEEN - THE STORY OF NAGESH

Nagesh traveled to the hamlet at Abdullat from Gevrai (Beed). When the team met him during the survey, he was reluctant to come to the school. "I am illiterate. I am of no use to the school." He kept repeating the thing. But we insisted and convinced him to come to the school. He finally agreed and joined the Sevankur Sugar School centre.

The centre has a very student friendly learning method which is far away from the traditional teaching. Nagesh really liked this technique and started coming regularly. He showed much interest in activities and started reciting the alphabets on slate. He was introduced with numeracy literacy till 100. He was so gelled with the school environment that he started telling some interesting stories during prayers at the beginning of the day. We were happily surprised with his transformation and interest.

When the hamlet finished the work and he was about to leave the place, we could see him overwhelmed with the whole experience. His perception towards education was transformed during his stay. He promised us to attend the school. His parents also came to meet our team and shared the anecdotes of 'new Nagesh' since he started coming to Sevankur Sugar School centre.

We are very much happy and see immense amount of satisfaction after seeing this social change in the life of Nagesh. More to see in future.

NOW SEVANKUR LEARNING CENTER WILL BE TRULY DIGITAL

On the initiative of Harshad Desai sir, Lenovo Laptop Showroom, Kolhapur on the occasion of 5th anniversary of their showroom; two laptops in good condition, one pc, tab were gifted to Vidyodaya's team. The children of the sugarcane workers will now definitely learn computer along with writing and reading. A few children were also given Lenovo bags on this occasion.

Thank you Harshad sir, Teju tai and lenova team we will definitely use your help properly.

SEVANKUR PROJECT

SEVANKUR PROJECT SURVEY

As a part of the Sevankur Sugar School initiative, our team visited hamlets of sugarcane workers to do the survey of children to get them enrolled for Sevankur Sugar School this November. The main objective of this survey was to create awareness of education in these hamlets and imbibe the quest of learning in these children. We created an offline form to collect the information of the students that will help us to design our curriculum and start the school as early as possible.

INAUGURATION OF SEVANKUR LEARNING CENTER

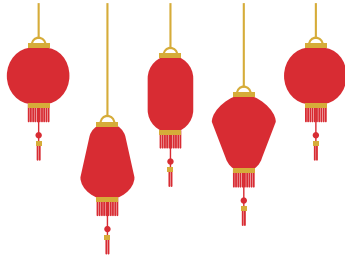

After the survey, on 14th November, 2022 the Children's Day was celebrated with sugarcane workers in a joyful environment. All teams created a full day program where special guests distributed snacks to children and the children's dance program was conducted with enthusiasm. On this special occasion of Children's Day we inaugurated our sugar school for the year 2022-23.

इचलकरंजी : अब्दुल्लाह, शिरदवाड येथे सेवांकुर साखरशाळेच्या प्रारंभप्रसंगी माजी जिल्हा परिषद सदस्य विजय भोजे, विनायक गद्रे व मान्यवर.

सेवांकुर साखरशाळेचा प्रारंभ

प्रतिनिधी इचलकरंजी अब्दुल्लाह व शिरदवाड येथे सेवांकुर साखरशाळेचा प्रारंभ करण्यात आला. माजी जिल्हा परिषद सदस्य विजय भोजे, विनायक गद्रे यांच्या उद्घाटन झाले. जसतोंड कामगारांची शिक्षणापासून वंचित राहू नये यासाठी २०१६ पासून सेवांकुर साखरशाळा अब्दुल्लाह व शिरदवाड केंद्र या दोन ठिकाणी चालू केली आहे. गेल्या ६ वर्षांत सुमारे ३५० मुलांना शिक्षणाच्या प्रवाहात आणण्यासाठी प्रयत्नशील असल्याचे सार्शा माकी यांनी सांगितले. आमारे शशिकांत मुद्दपुरे यांनी मानले. सूत्रसंचालन वर्षा पाटील यांनी केले. यावेळी विद्यार्थी, पालक, मान्यवर उपस्थित होते. दरम्यान, संस्थेमार्फत ८ शिक्षण मित्र काम करणार आहेत. सर्व मुलांना शैक्षणिक साहित्य देण्यात आले असून यापुढील काळात दररोज या विद्यार्थ्यांना माध्यमही देण्यात येणार असल्याचे यावेळी संयोजकांनी सांगितले.

A TRIP FOR MILLION DOLLAR SMILE

Sevankur Sugar School and LKSP students were taken to an exciting trip to Bahubali, Kunthugiri from Hatkanangale block. During the trip, they visited and learnt about *Jahaj* Temple, Parswanath Bhagavan Museum, *Arsa Mahal*, garden at Kunthugiri. All thoroughly enjoyed the experience during the trip. D.K.T.E. College Secretary, our guide Mrs. Swapna Awade provided us with a college bus for the trip. Thank you from the bottom of my heart to all those who contributed to create a valuable smile on children's face.

SCIENCE SAMVAD PROJECT

KAGWADE MADAM - STAR OF THE SYSTEM

When Science Shiksha Samvad started in schools of Shirol Block 2 years ago, we found Kagawade madam receiving every bit of it very positively since then.

She not only adopted a facilitation method of innovative learning, but observed our team fellows as well. This boosted her confidence immensely to be the part of the training team during the training sessions.

This was a very joyous event for us as a government teacher from the system wished to be the changemaker and readily wanted to be a facilitation trainer for other schools. This act promoted the learning by doing technique and boosted the performance and morale of trainee teachers as well.

We saw the spark in her eyes while co-conducting the training and observing the change in mindset of teachers and being supportive to teachers while adapting the facilitation method, solving doubts while doing experiments.

We wish to create more teachers like Kagawade madam in future, that will bring about the change in the scientific concept's learning curve of students and adopt a healthy teaching environment at government ZP schools.

Thank you Kagwade Madam for your immense support and may you retain such curious nature throughout your career for the betterment of students.

SCIENCE SAMVAD PROJECT

'Science Shiksha Samvad : Co-creating activity based Learning

Vidyoday Mukhtangan Parivar Foundation is working for the holistic development of smart and needy children in rural areas and also for sustaining the learning curve of migrant children and will continue to do so in future as well.

The confidence gained while working with the children for the last 12 years is definitely useful in implementing the science education Samvad (विज्ञान शिक्षा संवाद) program with the Zilla Parishad school teachers.

To raise the motivation of government-organized teachers, becoming their friend and helping them for the overall development of the school and the students will be the anchor of our work in the coming future.

Science education dialogue is becoming a very popular activity among teachers. We don't call this initiative as 'training', we call it 'dialogue'.

We interact with teachers about activities that complement the school curriculum, class experiments, projects, science toys, extracurricular activities and insights from them.

While working with children, we will try to bring the 'hidden child' inside teachers back to life. We enjoy every session interaction. There is no doubt that, this dialogue will enrich our understanding of teaching and learning in the future and ultimately students will enjoy learning in future.

'VIDYANOTSAV' (FESTIVAL OF SCIENCE)

SCIENCE FESTIVAL 2023 : WHEN A TEACHER TAKES OWNERSHIP

For the last few years, Vidyoday Muktagan Parivar has been celebrating Science Day in the month of February. The science festival has also a motive to create scientific temper, observatory skill and innovation among students. We also look forward to creating citizens with an aware mindset in society.

This year too, the Little Kalam Science Award 2023 was organized by team Vidyoday along with schools from the block. The highlight of this event was that all schools and staff were readily involved and co-created the arrangement for the event. Centre Head Attar Sir advised us to select a school that can host the event. Abdullat Government school accepted this hosting and invited all other school staff and children for the event. Vidyoday team had this motive of creating awareness among the system and this year we found ourselves close to our goal.

After the science project competition,(rank in bracket) Vyankatrao High School, Ichalkaranji, Kanya Vidya Mandir, Shiradwad(2), Vidya Mandir, Patil Mala, Abdullat(3), Kendriya Prathmik school, Abdullat (4) were winners.

WORKSHOP, TRAININGS AND SHIBIR

ENRICHING EXPERIENCE FOR TEAM VMPF

While working on any social problem we always try to find the answer from its roots. What are the political, social and economical reasons for the migration of sugarcane workers? Why do lakhs of school going children migrate every year despite many schemes of the government? Shall we teach these children during the seasonal time interval? If yes, then, how should we teach? What should be the content? We are still searching for answers to many such questions and doing different experiments. We tried to seek the answers by attending the recent five-day capacity building training which was conducted by 'Palakneeti Parivar Khelghar Sanstha', Indian Institute of Education, Pune.

In this five-day training, the various problems of the sugarcane workers and perspectives behind the same were considered in various ways. Various methods were introduced to create a fun learning environment for students. The entire team gained valuable experience during the training.

LEADERSHIP CAMP BOOSTED KNOWLEDGE BASE THIS WINTER

It is great pleasure to share this news that Vinayak Mali (CEO, Co-Founder, VMPF) completed 3 day's leadership workshop in Delhi. It will definitely help our organization's growth and self development. We had lots of takeaways while doing interaction with Young social leader Entrepreneur.

Thanks UnLtd Incubation for warm learning in Cold winter. All the experience will be helpful for our growth for sure .

STEM LAB GIFT FOR LITTLE SCIENTISTS

While studying science, we required some models of Science Technology Engineering Mathematics (STEM). To get this model, we contacted Mauli Pvt. Ltd. in Mumbai. They agreed to buy 60 such models for the 5th-9th students. We are happy to share with you that, with the help of generous well wishers and donors like you, we were gifted with this beautiful STEM Lab.

GREAT MEETS

WORK RECOGNITION AT NATIONAL CAPITAL

Dr Dnyaneshwar Mulay Foundation led positivity movements' leadership positivity award event was organised in Delhi with the leadership of Mr Dnyaneshwar Mulay. Many government officials and delegates were present for this award ceremony. We were delighted and honoured when former President Mr. Ramnath Kovind took the note of Vidyoday foundation's seasonal school work for migrated sugarcane workers under sevankur project. We had a rare opportunity to connect with many delegates and institutions and get recognised about our work in Nations capital during this occasion.

EXPERT CHAT AT GURUJAN HRIDAY SAMMELAN

'Shivam Pratishtan Gharewadi Gurujan Hruday Sammelan' is a major gathering happening around the month of October-November every year, where teachers across state come together and discuss how education can be more qualitative in future. This year, Vidyoday co-founder Mr Vinayak Mali attended this Sammelan and interacted with many education experts like Mr. Nilesh Nimkar and others. Many honorable teachers who are doing experiments in their schools like Mr. Walke, literary author Mr. Praveen Dawane shared their valuable thoughts on this occasion.

COMMITTMENT WITH GOVERNMENT FOR QUALITY EDUCATION

Zilla Parishad Kolhapur Chief Executive Officer CEO Sanjay Singh Chavan (IAS) accepted the proposal of Vidyoday organization to conduct school quality development projects in 30 Zilla Parishad schools of Shirol taluka this year.

We thank sir from bottom of our heart for providing this valuable getaway by accepting our collaboration proposal. We definitely deserve your trust. We are committed to providing quality education to every child.

GREAT MEETS

THE INSIGHTFUL VISIT : MR. JAIN SIR

In our growth trajectory, many well-known Incubator institutes across the country noticed our work and trained our team to enhance the quality of our work and kept our souls ignited for social welfare.

In this quarter, Mr. Dilip Jain sir of UnLtd. India, Mumbai travelled here to visit the field work of Vidyoday projects. He visited the schools involved in our project, observed our sessions, met the principal, center head and group education officer. He gave us many ideas and inputs to make this work more impactful. Dileep Jain sir gave us his valuable insights in his 2 days' visit which will definitely suffice our intellect for the next 3 years.

"DR.KALAM MOBILE SCIENCE SCHOOL IS A VERY WONDERFUL INITIATIVE" MRS. KAMBLE

Ichalkaranji Municipal Corporation Extension Officer, Mrs. Poonam Kamble inaugurated 'Dr. Abdul Kalam Vigyanatri Mobile School' in this quarter. She requested to implement a similar project for the schools of Ichalkaranji Municipal Corporation too. She spoke about the need for such an activity in the city as well as essential for rural areas.

GREAT BHET OF MR. VIJAY KELKAR

A gathering of social entrepreneurs were organised where development professionals working across the state in diverse geography and on subjects like education, health and livelihood were convened. Vidyoday founder Mr. Vinayak Mali met Mr. Vijay Kelkar here. During the event, all organisations presented their models of solution for the complex problems of the society on which they are working. Mr. Vinayak also got this opportunity to present the working model with others and its achievements over the last 8 years. He also personally met Mr. Vijay Kelkar and received valuable guidance from him.

OUR DONORS AND WELL-WISHERS

OUR FINANCIAL BACKBONE - DONORS

Many well wishers of Vidyodasy Mukhtangan Parivar donated in this financial year (2022-23). We are adored by many of our well wishers and we take this opportunity to thank all of them from the bottom of our hearts. Please forgive us if we missed on any one of donor's name. We are always open for your suggestions and feedback.

MONITORING AND EVALUATION OF LITTLE KALAM SCIENCE PROJECT

Evaluation -Kumar vidya Mandir , Shiradwad 6 th

Pre-evaluation Graph, Students of Class 6, Kumar Vidya Mandir, Shiradwad

Evaluation: Kumar Vidya Mandir, Shiradwad - Class 7th

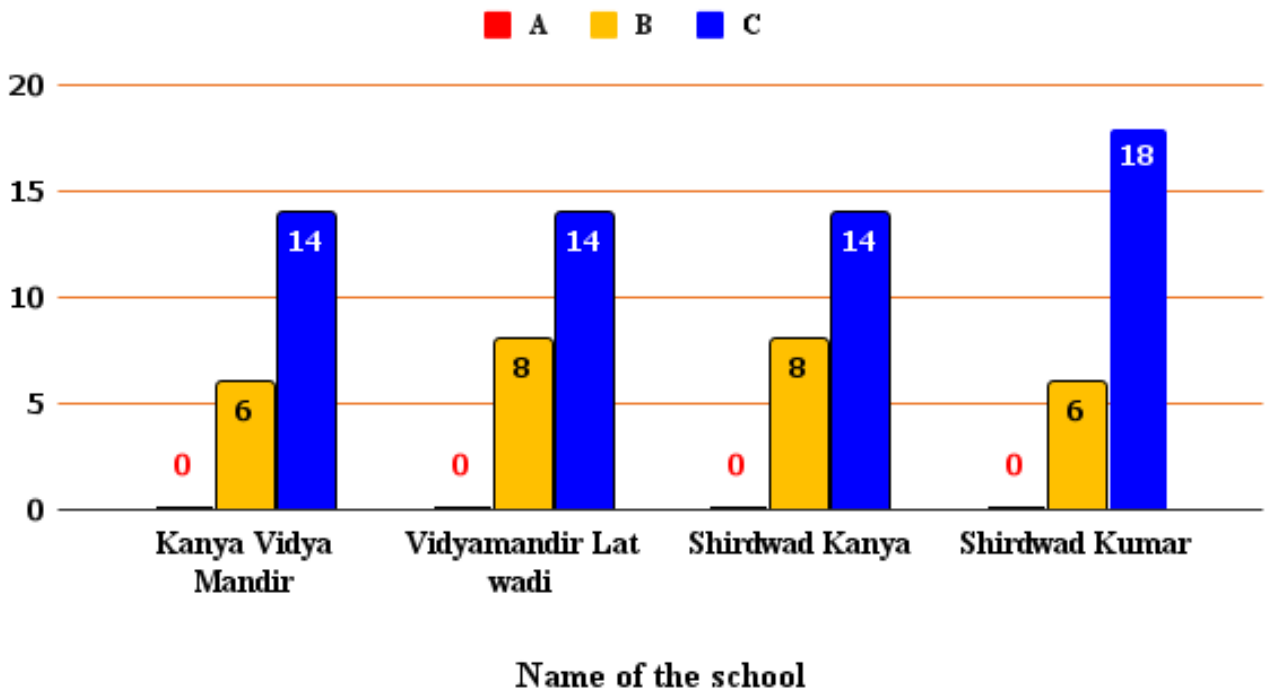

Post-evaluation Graph, Students of Class 7, Kumar Vidya Mandir, Shiradwad

Conclusion

- We could see the progress in Problem Solving skill of students (STD.6) Kumar Vidya Mandir, Shiradwad.
- For Same school with class 7, we could see students progresing in Questioning Skills and Creativity.

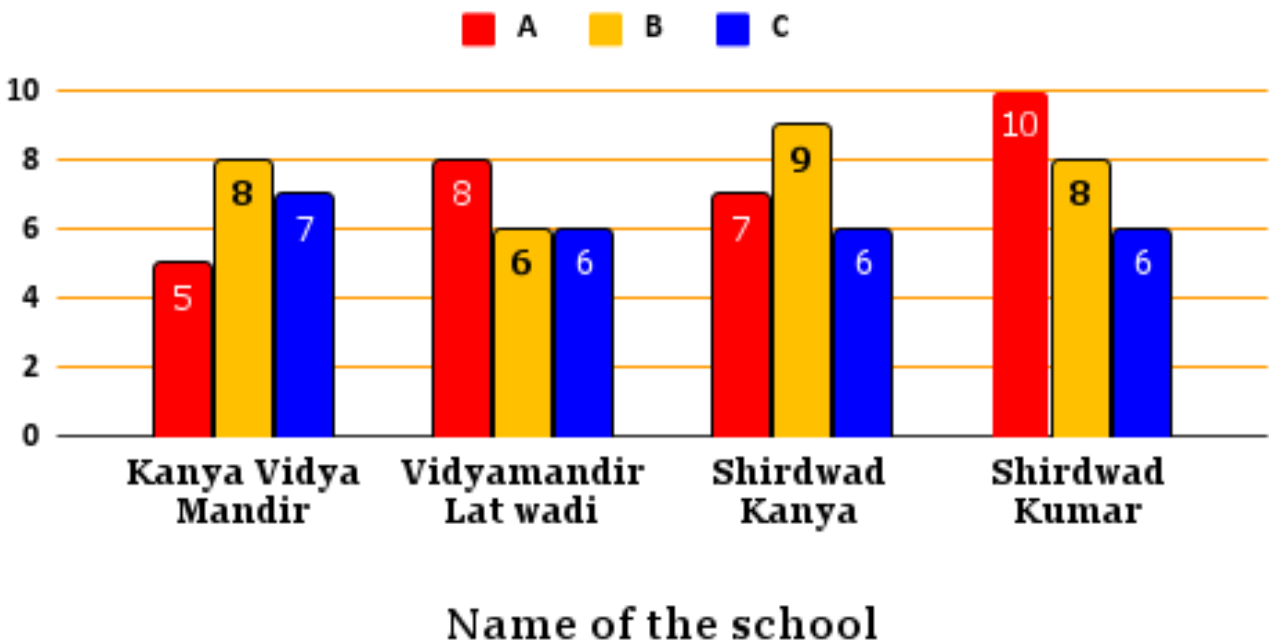

MONITORING AND EVALUATION OF VIDYANKUR PROJECT

Pre-Evaluation of Marathi Subject: Sevankur Project (July, 2022)

Pre-Evaluation of Marathi Subject: Vidyankur Project (July, 2022)

Post-Evaluation of Marathi Subject: Sevankur Project (April, 2023)

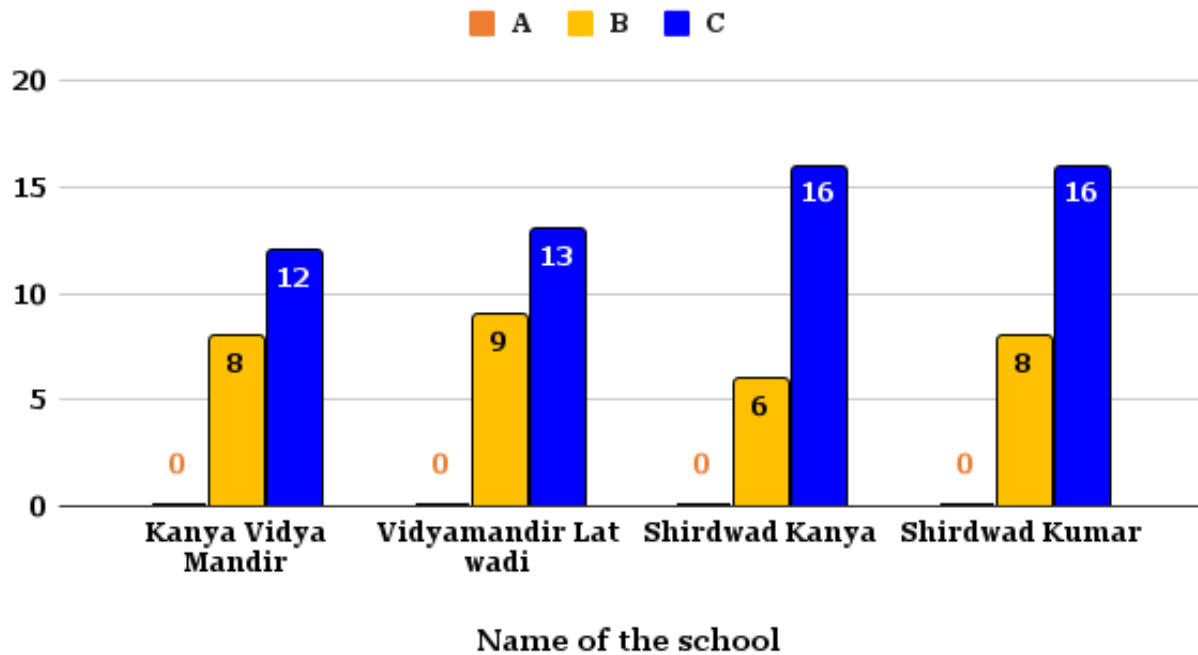

Post-Evaluation of Marathi Subject: Vidyankur Project (April, 2023)

Conclusion

- Here, we can see the number students in post section A, B, and C are increasing in comparison to Pre evaluation. (Find Section A,B, C criterias in appendix)

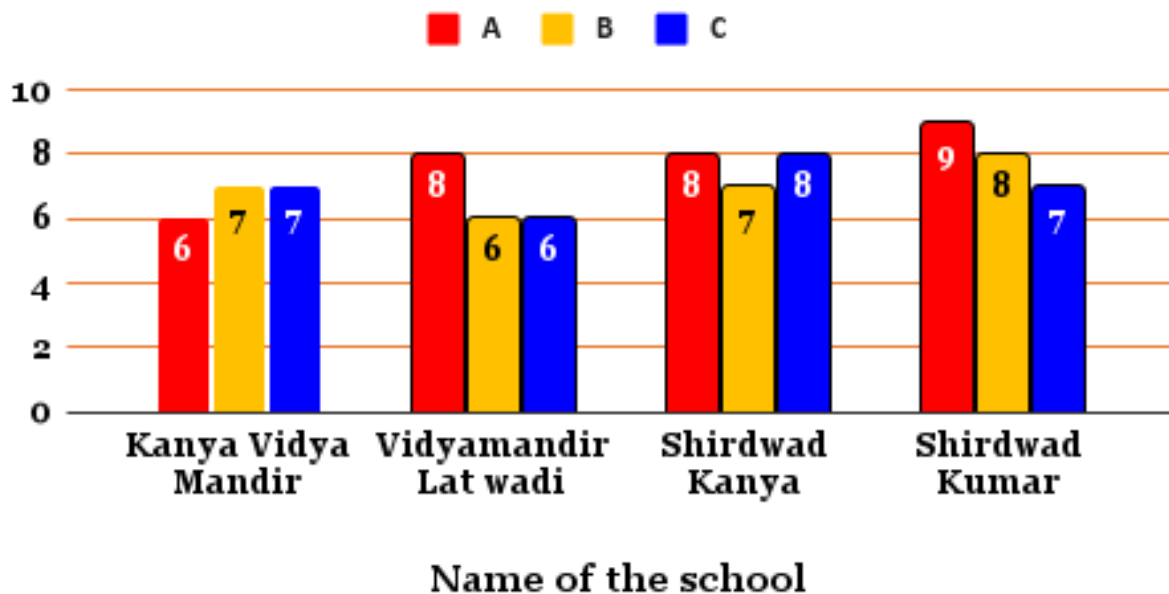

MONITORING AND EVALUATION OF VIDYANKUR PROJECT

Pre-Evaluation of Maths Subject: Sevankur Project (July, 2022)

Pre-Evaluation of Maths Subject: Vidyankur Project (July, 2022)

Post-Evaluation of Maths Subject: Sevankur Project (April, 2023)

Post-Evaluation of Maths Subject: Vidyankur Project (April, 2023)

Conclusion

- Here, we can see the number students in post section A, B, and C are increasing in comparison to Pre evaluation. (Find Section A,B, C criterias in appendix)

APPENDIX

For Marathi Subject

A level

Able to at least Read and write sentence with Punctuation mark. Reading and comprehending simple texts independently know basic grammar and sentence structure.

B level

Knowing Chaudakhadi , Read and Write Words

C level

Recognizing and writing the Mulakshre

For Maths Subject

A level -

Counting and recognizing numbers from 1 to 100.

Able to at Least addition and subtraction 2 Digit with Borrowing
Solving basic word problems involving numbers and quantities.

B Level -

understanding the smaller and Bigger of the numbers.

Knowing 1-30 Numbers

Able to at least Addition and subtraction of 1 digit

C Level -

knowing 1- 9 Numbers

GRATITUDE!

VMPF Annual Report, 2022-23

In process of Shaping THEIR FUTURE', We Need 'YOUR' help!!!

Your 'Lending Hand'
will facilitate
TRANSFORMING 380
Students into 'Ideal
Citizens' of Tomorrow

!!

Hello to all !!

Dear Friends,

Vidyoday Mukhtangan Parivar Foundation is a non-profit organization in Kolhapur district, which strives to provide a safe, secure and happy childhood to children deprived of education in rural areas, and sugarcane child laborers.

Your support will help us at Vidyodaya Mukhtangan Parivar to provide a sound childhood to 320+ children from rural parts of Kolhapur district. We need gracious hearts like YOU in this 'Battle against Illiteracy'

Vidyoday core team

In rural areas, parents are unable pay attention to their children due to their employment issues, ignorance for education, poverty and liquor addiction. This results in children lagging behind in their studies and consequently are deprived of their 'basic Right To Education'. **According to ASAR report, 1.4 percent of students were registered as out-of-school in Maharashtra 2022 report.** At the national level, this ratio is **4.6 percent**. This percent is seen more in rural areas. There are 4.5 million child laborers in the age group of 5-14 in India.

Project Sevankur

Study centers along with nutritious meals are organized for the children of Sugarcane workers who are deprived of education during the Sugarcane cutting season to help them immerse in learning process.
